Cautionary Note Regarding Forward Looking Statements

Certain statements in this presentation are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding whether we will meet our expected financial projections and guidance, the expected financial and operating performance of MeetMe following completion of the acquisition of Skout, Inc., the expected synergies from the combined company and whether Skout will do at least $7.5 million in adjusted EBITDA in the first twelve months following the acquisition. The words “believe,” “may,” “estimate,” “continue,” “anticipate,” “intend,” “should,” “plan,” “could,” “target,” “potential,” “is likely,” “expect” and similar expressions, as they relate to us, are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. Important factors that could cause actual results to differ from those in the forward-looking statements include the risk that our applications will not function easily or otherwise as anticipated, the risk that we will not launch additional features and upgrades as anticipated, the risk that unanticipated events affect the functionality of our applications with popular mobile operating systems, any changes in such operating systems that degrade our mobile applications’ functionality and other unexpected issues which could adversely affect usage on mobile devices. Further information on our risk factors is contained in our filings with the Securities and Exchange Commission (the “SEC”), including the Form 10-K for the year ended December 31, 2015, the Form 10-Q for the quarter ended June 30, 2016, and the Form 8-K filed on October 4, 2016. Any forward-looking statement made by us herein speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Regulation G – Non-GAAP Financial Measures

This presentation includes a discussion of Adjusted EBITDA from continuing operations which is a non-GAAP financial measure. Reconciliations to the most directly comparable GAAP financial measures are provided in the Investors section of our corporate website, www.meetmecorp.com.

The Company defines Adjusted EBITDA as earnings (or loss) from continuing operations before interest expense, change in warrant liability, benefit or provision income taxes, depreciation and amortization, non-cash stock-based compensation, non-recurring acquisition and restructuring expenses, gain or loss on cumulative foreign currency translation adjustment, gain on sale of asset, bad debt expense outside the normal range, and the goodwill impairment charges. The Company excludes stock based compensation because it is noncash in nature.
